EXPERIENCE

Allied Insurance Company of the Maldives Pvt Ltd — *SENIOR DEVELOPER*

AUGUST 2025 – PRESENT

Contributing to an integrated workflow management platform that unifies customer and client operations across multiple internal systems.

- Building scalable, type-safe APIs and UI components with NestJS and React.
- Implemented advanced form features, including nested validation schemas and dynamic autocomplete, in strictly typed TypeScript.
- Working in agile sprints, with task tracking and coordination in Jira.

SME Development Finance Corporation — *SOFTWARE DEVELOPER*

JULY 2023 – AUGUST 2025

In-house software across monitoring, document processing and credit analysis.

- Developed OCR and text-extraction software for processing documents.
- Built dashboards for a range of monitoring needs.
- Contributed to credit analysis applications with a focus on data security.
- Rebuilt the company website for its rebrand as SME Digital, in Next.js with Strapi CMS.

Bank of Maldives — *INFORMATION SYSTEMS ENGINEER*

JUNE 2020 – JULY 2023

- Improved the speed and security of the Dollar Sale Portal, and built a staff communication portal.
- Fixed Internet Banking bugs and maintained the Docker hosts behind critical systems.
- Maintained 99.9% uptime for critical banking systems.
- Conducted code reviews, managed feature releases and provided post-release support.

Waste Management Corporation Limited — *IT SUPPORT TECHNICIAN*

AUG 2017 – JUNE 2020

- Installed network equipment, servers and Axis network cameras.
- Performed on-site server installations at remote locations.
- Provided technical support to staff.

Villa College QI Campus — *IT OFFICER*

FEB 2016 – AUG 2017

- Troubleshot hardware, software and network issues.
- Installed software and tested equipment and programs.
